RATINGS CHECKLIST

RATINGS CHECKLIST

RATINGS REVIEW

The first step...knowing your strengths and weaknesses. Dig in to your ratings and review everything! Are you hitting your goal in the target demo? What are your weak points? Strong points? What is your plan to correct any TSL or cume issues?

MUSIC

Create a panel of at least 8 stations that are similar to yours (format, competitive landscape, geography, ethnicity, etc). Compare your playlist to a 30-day cross reference of your panel. Look at your rotations versus theirs. Compared to your panel, are you playing a song too much, too little or not at all?

Double-check your music scheduling software's rules, soundcodes and rotations.

IMAGING

Review, update and freshen all imaging. New song hooks, new listener drops, new movie drops, etc. Are you selling the right message to drive your Brand? Are you promoting what your station is famous for?

Billboards (artwork?), TV (script / audio / video), facebook (select fan pages to attack), street presence (street team, van stops, etc), visibility (bumper stickers, tent, inflatable, etc.)

RATING S CHECKLIST

MORNING SHOW & PERSONALITIES

How is the morning show being promoted after 10am?

Schedule on-going aircheck sessions (word economy, teasing to force additional tune-ins, "selling" the station, etc.)

How are your personalities promoting features and other dayparts? Are your personalities effectively teasing and setting "appointments?"

Are your air personalities creating an experience in your listeners mind?

SOCIAL Website up

Website up to date with no broken links?

Who is responsible for posting to facebook, Instagram, and twitter? Blogs? Podcasts? How Often?

Live tweeting / Facebook to engage listeners?

Are these "sharable" posts?

Are you promoting ongoing station features, events and contesting?

CONTESTING & PROMOTION

What type of promotion is this...TSL? Cume?

Sales driven promotion?

Prepare by scheduling your tease dates, start date, pre-promo, regular promo, and after-glow promo.

Rules posted? Promoting on all social?

Is your promo staff up to date on all promotions and executions?

FEATURES & BENCHMARKS

Review all existing features. Are they getting the job done by creating additional tune-in opportunities, or do certain ones need to be freshened or eliminated?

Is it time to introduce a new feature or benchmark?

Do you have specialty weekends planned? (I.E. Weekend of 1,000 tickets, led zeppelin weekend, 80's weekend, winning weekend, etc)
